om den mexicanske maler Frida Kahlo's 1907-1954 værker

An in-depth biography of Mexican artist Frida Kahlo details her haunting and original painting style, her turbulent marriage to muralist Diego Rivera, her association with communism, and her love of Mexican culture and folklore.

The Sister Chapel (1974-78) was an important collaborative installation that materialized at the height of the women's art movement, conceived as a nonhierarchical, secular commemoration of female role models. The Sister Chapel consisted of an eighteen-foot abstract ceiling that hung above a circular arrangement of eleven monumental canvases, each depicting the standing figure of a heroic woman. The choice of subject was left entirely to the creator of each work; as a result, the paintings formed a visually cohesive group without compromising the individuality of the artists. Contemporary and historical women, deities, and conceptual figures were portrayed by distinguished New York painters Alice Neel, May Stevens, and Sylvia Sleigh, as well as their accomplished but less prominent colleagues. Among the role models depicted were Artemisia Gentileschi, Frida Kahlo, Betty Friedan, Joan of Arc, and a female incarnation of God. Although last exhibited in 1980, the Sister Chapel has lingered in the minds of art historians who continue to note its significance as an exemplar of feminist collaboration. Based on previously unpublished archival materials and featuring dozens of rarely seen works of art, this comprehensive study details the fascinating history of the Sister Chapel, its constituent paintings, and its ambitious creators.

This provocative reassessment of Frida Kahlo's art and legacy presents a feminist analysis of the myths surrounding her. In the late 1970s, Frida Kahlo achieved cult heroine status; her images were splashed across billboards, magazine ads, and postcards. Fashion designers copied the so-called Frida look in hairstyles and dress, and Fridamania even extended to T-shirts, jewelry, and nail polish. Margaret A. Lindauer argues that this mass-market assimilation of

kahlo's identity has detracted from appreciation of her work leading to narrow interpretations based solely on her tumultuous life kahlo's political and feminist activism her stormy marriage to fellow artist diego rivera and her progressively debilitated body made for a life of emotional and physical upheaval but lindauer questions the author equals the work critical tradition that assumes a one to one association of life events to the meaning of a painting in kahlo's case such assumptions created a devouring mythology an iconization that separates us from the real significance of the oeuvre accompanied by twenty six illustrations and deep analysis of kahlo's central themes this provocative semiotic study recontextualizes an important figure in art history at the same time it addresses key questions about the language of interpretation the nature of veneration and the truths within self representation

my painting carries within it the message of pain frida kahlo born in 1907 near mexico city learned about pain at a very early age she contracted polio at six and then at eighteen suffered serious and permanent injury to her right leg and pelvis in a terrible bus accident young and undaunted she went on to fall in love with the great mural painter diego rivera at a time when their native mexico was going through a period of thrilling political and cultural upheaval rivera and kahlo were a legendary couple both were impassioned lifelong communists while fervently attached to traditional mexican indian culture and both were driven by a relentless artistic ambition that surmounted all the dramas that plagued their marriage later frida became the friend and lover of leon trotsky she was greatly admired by the surrealists and sat for some of the greatest photographers of her day her art largely consisted of self portraits like the famous paintings the two fridas and the broken column though she also left many striking still lifes in frida kahlo painting her own reality christina burrus assesses frida kahlo's extraordinary work a maelstrom of cruelty humor candor and insolence reflecting the essence of a free beautiful courageous woman who concealed her physical pain behind peals of infectious laughter

maría izquierdo 1902 1955 and frida kahlo 1907 1954 were the first two mexican women artists to achieve international recognition during the height of the mexican muralist movement they established successful careers as easel painters and created work that has become an integral part of mexican modernism although the iconic kahlo is now more famous the two artists had comparable reputations during their lives both were regularly included in major exhibitions of mexican art and they were invariably the only women chosen for the most important professional activities and honors in a deeply informed study that prioritizes critical analysis over biographical interpretation nancy deffebach places kahlo s and izquierdo s oeuvres in their cultural context examining the ways in which the artists participated in the national and artistic discourses of postrevolutionary mexico through iconographic analysis of paintings and themes within each artist s oeuvre deffebach discusses how the artists engaged intellectually with the issues and ideas of their

era especially mexican national identity and the role of women in society in a time when mexican artistic and national discourses associated the nation with masculinity izquierdo and kahlo created images of women that deconstructed gender roles critiqued the status quo and presented more empowering alternatives for women deffebach demonstrates that paradoxically kahlo and izquierdo became the most successful mexican women artists of the modernist period while most directly challenging the prevailing ideas about gender and what constitutes important art
